

Community-Building Initiatives for WWME

By Jack & Karen Baker

We would like to draw attention to some helpful guidance for strengthening WWME Communities available to you in the Electronic Resource Library.

Listed are four Community Building Initiatives that include:

1. Each Area should provide at least one enrichment experience and one family-centered event each year for the community couples and priests in their region.
2. Each local sharing group should reevaluate their policies to see if they are attractive to new couples.
3. Each sharing group should focus on presentations that model living the values of the Weekend.
4. Each active community couple should choose a new couple in their sharing group to invest in and empower.
